

Running the VPN client for the first time

1. Next, login to your Internet Service Provider: (i.e AOL, NetZero, Comcast Verizon)

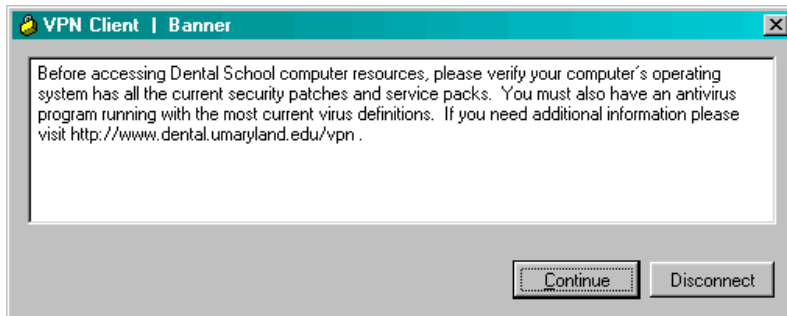

2. Click on Start->Programs->UM VPN Client-> VPN Dental School, UMB

3.

Double click on "Internet 2 Private Zone"

4. Enter your username and password (The same that you use to access the dental school email) You will see a reminder to keep your computer up-to-date. Click Continue.

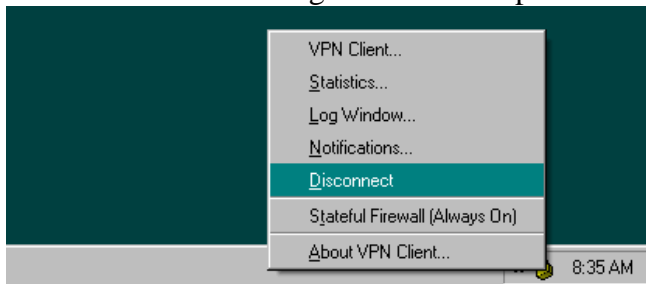

Once this is complete you should see a gold padlock in the lower right hand corner of you PC (by the clock)

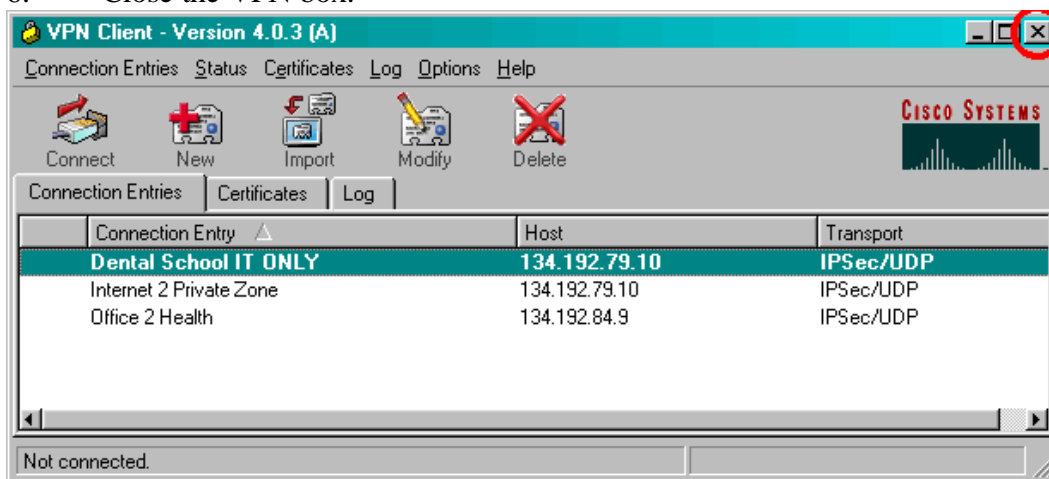

You now have a secure connection to the computer resources that you have access to at the Dental School.

5. To disconnect right click on the padlock and disconnect.

6. Close the VPN box.

If you encounter any problems please review the online documentation and FAQ's. If you continue to have difficulties please contact us at help@dental.umaryland.edu
