Special Olympic Special Smiles (SOSS) provides dental screening, referral, and education to Special Olympic athletes. The aim is to increase awareness of overall health issues facing this special needs population. SOSS participation entails registering and providing dental screening/education to athletes. The data collected will be used to advocate for educational courses, access to oral health providers, etc.

For participation, licensed dental professionals can earn Continuing Education credits while students earn community service-learning credit. Credit can be earned for either partial or full day participation.

For more information, please contact Sheryl Syme, RDH, MS at (410) 706-7773 or SSyme@umaryland.edu.
