

Translational Conference Teaching Elective

Dr. Mark E. Shirtliff

Total Hours __8__

Class Size Limited: 12 students

Location: See below

Educational Purpose of the Course – The Translational Conferences are designed for students in dental years two and three and senior dental hygiene students to present and discuss a clinical situation and the science related to managing the case. Students participating in the elective will meet with faculty before the class to review relevant material and prepare for the small group discussions that they will help to monitor, direct, and teach.

Prerequisites: None

Method of Evaluation: __x__ Attendance, participation.

Method of Grading: Pass/fail

Must attend both conferences for the selected GP (fall/spring)
Must attend 1 hour preconference meeting the preceding Wednesday at 12:00pm
