THE DR. SAMUEL D. HARRIS
NATIONAL MUSEUM OF DENTISTRY

ALPHA-BITE BOOK

AN ALPHABETICAL JOURNEY THROUGH THE CHOMPERS OF THE ANIMAL KINGDOM

Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
At the Dr. Samuel D. Harris National Museum of Dentistry, we celebrate healthy smiles and healthy minds. We developed the Alpha-Bite Book in 2022 for free use by parents, teachers, and anyone else helping children learn to read, write, and care for their teeth. Individual pages may be used together or separately.

For information about the museum, including our location, hours of operation, programming, and additional learning resources, visit us online at www.dentalmuseum.com.
A IS FOR ALLIGATOR

Color the picture and practice writing the letter A.

TOOTH FACT

Adult alligators can have up to eighty teeth!
B IS FOR BEAVER

Color the picture and practice writing the letter B.

TOOTH FACT

Beaver teeth are orange!

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
C IS FOR CAT

Color the picture and practice writing the letter C.

TOOTH FACT

Cats use their front teeth to clean their fur.

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
D IS FOR DOLPHIN

Color the picture and practice writing the letter D.

TOOTH FACT

Just like trees, dolphins' teeth have rings on them that show their age.

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
E IS FOR ELEPHANT

Color the picture and practice writing the letter E.

TOOTH FACT

Elephants’ tusks are actually teeth!

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
F IS FOR FOX

Color the picture and practice writing the letter F.

TOOTH FACT

Foxes invite one another to play by opening their mouths wide and showing off their teeth!
G IS FOR GIRAFFE

Color the picture and practice writing the letter G.

Giraffes have the same number of teeth as humans (32)

Gggggg
H IS FOR HIPPO

Color the picture and practice writing the letter H.

George Washington, the first U.S. President, wore dentures made from hippo teeth!

TOOTH FACT

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
I IS FOR IMPALA

Color the picture and practice writing the letter I.

TOOTH FACT

Impalas have small gaps between their teeth. This allows them to use their teeth like a comb to brush their fur!
J IS FOR JELLYFISH

Color the picture and practice writing the letter J.

Jellyfish teeth are so small, they look and feel like tiny hairs!

J J J J J j j j j

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
K IS FOR KANGAROO

Color the picture and practice writing the letter K.

Kangaroos have extra teeth they don’t use. If any of their chewing teeth fall out, these extra teeth take their place!
L IS FOR LOBSTER

Color the picture and practice writing the letter L.

TOOTH FACT

Lobsters have teeth in an unusual place: their stomachs!
M IS FOR MOOSE

Color the picture and practice writing the letter M.

At the fronts of their mouths, moose have no upper teeth!
N IS FOR NARWHAL

Color the picture and practice writing the letter N.

TOOTH FACT

Narwhals can use the long tooth on their heads to taste the water around them.

NNNNNnunn

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
O IS FOR OPOSSUM

Color the picture and practice writing the letter O.

TOOTH FACT

Opossums have the largest number of teeth of any mammal in North America! (50)
P IS FOR PUPPY

Color the picture and practice writing the letter P.

As they grow up, puppies lose their baby teeth just like human kids do!

PPPPpppp
Q IS FOR QUOKKA

Color the picture and practice writing the letter Q.

TOOTH FACT

Quokkas are known for being some of the cutest, friendliest animals around. Be careful though—quokkas have super sharp teeth!

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
R IS FOR RABBIT

Color the picture and practice writing the letter R.

TOOTH FACT

Rabbits’ teeth never stop growing! To keep their teeth from growing too long, rabbits chew on tough foods like nuts and seeds.

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
S IS FOR SHARK

Color the picture and practice writing the letter S.

Sharks lose one or two teeth per week for their entire lives! They have a unique ability to keep growing new teeth to replace the ones that are lost.

SSSSssss
T IS FOR TREE FROG

Color the picture and practice writing the letter T.

TOOTH FACT

Out of more than 6,000 species of frogs, the Dentate Marsupial Tree Frog is the only one with teeth on both its upper and lower jaws.
U IS FOR UNAU

Color the picture and practice writing the letter U.

TOOTH FACT

Human teeth have a natural protective coating called enamel. Unau, a type of sloth, have no enamel on their teeth.

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
V IS FOR VULTURE

Color the picture and practice writing the letter V.

TOOTH FACT

Vultures do not have teeth! Instead, they chew their food using their beaks.

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
W IS FOR WHALE

Color the picture and practice writing the letter W.

Even though they are one of the largest animals on earth, blue whales have no teeth!
X IS FOR X-RAY TETRA

Color the picture and practice writing the letter X.

TOOTH FACT

X-ray tetra fish clack their teeth together to pass messages along to other fish!

X X X X X X
Y IS FOR YAK

Color the picture and practice writing the letter Y.

In some parts of the world, Yak teeth are made into special jewelry.

---

Developed for public use by the Dr. Samuel D. Harris National Museum of Dentistry
31 S. Greene St, Baltimore, MD 21201
www.dentalmuseum.com
Z IS FOR ZEBRA

Color the picture and practice writing the letter Z.

TOOTH FACT

Zebras’ teeth are flat and strong. This helps them eat tough, dry grasses.
What is the first letter of your name? Write it below, then practice writing your name on the dotted line. Draw a picture of yourself to match—and make sure you show off your awesome smile!

_ IS FOR

TOOTH FACT

Your teeth help you smile, speak, and eat your favorite foods! You can take good care of your teeth by brushing, flossing, choosing healthy foods, and visiting the dentist regularly.

To learn more about teeth, your family can visit us at the National Museum of Dentistry in person or online at www.dentalmuseum.com.
