

Volunteering at Levindale

Levindale has earned professional and national recognition for its commitment to providing a wide range of services while addressing the special needs of the elderly. Equally important is Levindale's concern for the residents' quality of life. As the first registered Eden Alternative facility in Maryland, Levindale is proud of its efforts to bring plants, pets, children and fun into the everyday life of its residents.

Volunteers play a vital role in helping to make this possible. Their skills, concern and compassion help enrich the lives of Levindale's patients and allow the health care team to deliver patient care more efficiently and effectively.

Volunteering at Levindale provides fulfillment that comes from knowing one's efforts are not merely appreciated, but really do make a difference!

What's in it for YOU?

Whether you want to work directly with patients, using counseling, nursing or creative art skills; help with children, pets or plants; or work behind the scenes assisting our business, support services and administrative offices, Levindale has a place for you. We offer opportunities for individual volunteers, civic groups and organizations. You can learn new skills, refine old ones and know your efforts are helping those most in need. Levindale also offers flexible hours, convenient for even the busiest schedule.

Volunteering at Levindale

Since 1890, Levindale Hebrew Geriatric Center and Hospital has been a leader in the Baltimore Jewish community. We are quick to respond to the changing needs of our elders and people with disabilities. Today our multi-care facility provides specialized medical, nursing and rehabilitation services through a chronic hospital, nursing home, and mental health and adult day care centers.

Levindale has earned professional and national recognition for its commitment to addressing the special needs of seniors. Equally important is our concern for the quality of life that our residents and patients experience. We achieve this thanks to the commitment of our Volunteer Services department.

Volunteers play a vital role in our culture through the concern and compassion that they exhibit every day, thus enriching the lives of our patients and residents.

How Do You Benefit?
Levindale volunteers gain fulfillment knowing that their efforts are not merely appreciated but really do make a difference!

As the first registered Eden Alternative center in Maryland, Levindale pays special attention to stamping out loneliness, helplessness and boredom among its residents and patients through companionship, empowerment and spontaneity.

There are unlimited opportunities for individual volunteers and volunteer organizations.

You can:

- Work directly with patients and residents, using counseling, nursing or creative arts skills.
- Help with programs involving children, plants and pets.
- Assist in our administrative office and with our support services.
- Create your own assignment.

In addition to helping our seniors, you can also learn new skills, refine old ones and be recognized for your efforts at our annual volunteer luncheon. Your uniqueness is valued here.

Our mothers and fathers, grandmothers and grandfathers deserve to live lives filled with joy and happiness.

Levindale also offers flexible hours that are convenient for even the busiest people.

Junior Volunteer Program

Bringing contentment into the life of an elder can begin in your teens. Levindale has a program for young people between the ages of 14 and 18. The creative input of volunteers of all ages enhances our programs.

Come and Join the Levindale Team!

Levindale is fortunate to have an active and supportive volunteer force for its ever-expanding programs and services. However, more help is needed. Please consider being a Levindale volunteer.

Levindale's Volunteer Services department is available to answer any questions you may have and will help develop a volunteer plan to meet your needs.
